**Taking You to New Heights Safely**

## Taking You to New Heights Safely

Manlift is market leader in the UAE, Qatar and India. Our fleet contributes to the best customer experience. We have a wide range of used and new Aerial Work Platforms (AWPs) from our rental fleet encompassing different models of scissor and boom lift's as well as spider lift's and finally telehandler's.

All of our fleet are CE spec from JLG, Genie, and Teupen and adhere to manufacturer maintenance standards.

Whichever elevated work platform you choose to buy, we will make sure to meet your demands in every aspect. All machines can be delivered with customized solutions such as painting in your company colors, provided with additional lighting or supplying particle filters for diesel models and also built in spark arrestor for additional safety requirements.

## Our Service Solutions

Our focus is to reduce your total cost of ownership with our support in maximizing your "up time" against the lowest cost possible, so that you can be more successful. We understand how important it is for you that your work is completed safely and effectively. That's why we provide you with expert advice and technical experts to consult with you on the right machine for the job to be done.

With our after sales support team we guide you on the effective management of your powered access equipment on your project, including long-term technical support and risk analysis.

We offer cost effective annual maintenance contracts, warranty for new purchased lifting equipment's and have a toll-free hotline to support you 24/7.

All our technicians are manufacturer trained and ensure you experience the highest level of safety, productivity and efficiency on all applications.

We ensure shortest lead time of OEM spare parts for a wide range of aerial work platforms thanks to our extensive stock availability.

The Manlift is also the official dealer for Teupen Spider Lifts and Genie aerial work platforms to enhance customer offerings.

## Tap the Network of Your Lifting Equipment Partner

As the largest specialist in the field of working safely and efficiently at heights, we ensure our customers remain safe, and we do that in 17 different countries, thanks to our international sales support.

By continuously investing in our team, quality and innovation, we have become a leading international player. With our international presence and exposure to market, we can meet both stated / unstated needs of customers anywhere in the world.

Manlift is already a market leader in rental in the UAE, Qatar and India and works together with strategic partners in the countries where we do not have a branch, as yet.

Our customers while working on projects abroad always have the same, trusted contact person as in their home country. Customers with international operations can arrange both local contracts, and also a central contract for their global operations.

Our primary objectives are to understand our customers' needs on a continuous basis and build strong partnerships. In spite of our international growth and exposure, we excel in rendering fast service, reliability and sharper focus on all our customers.

## Operator Safety and Efficiency

Manlift attaches paramount importance to working at height safely and efficiently. Therefore, we understand how important it is for your employees to receive adequate training. With our certified IPAF training centers we are able to provide you tailored training courses, and also at your project. In addition to the training 'Working Safely with Aerial Work Platforms', we also offers courses for:

Aluminium Mobile Access Towers, MEWPs for Managers, Demonstrator Training, Operator Training, Harness & Safety Training, Load and Unload Training.
