

# MANLIFT

## Safe and efficient building at heights

For more than ten years, Manlift has been on the job with partners in the construction industry. And with all those years of experience has come the knowledge of what it takes to get the job done quickly, efficiently, and safely. Whatever your requirements may be for aerial work platforms and whether you are looking for a rental or a purchase, we can offer fitting solutions for you. Manlift has offices in Dubai, Abu Dhabi, Doha and New Delhi whereby national coverage, local involvement and rapid response time are guaranteed.

Our total package of services includes maintenance with original equipment spare parts, training on operations and safety of all our equipment.

### 22 metre telescopic aerial platform

Working height (max)	21.90 m
Lifting Capacity (max)	230 kg
Horizontal reach (max)	17.30 m
Machine weight	13,115 kg
Drive	4 x 4 Diesel

### 26 metre articulated boom lift

Working height (max)	26.20 m
Lifting Capacity (max)	230 kg
Horizontal reach (max)	15.75 m
Machine weight	15,500 kg
Drive	4 x 4 Diesel

### 21 metre scissor platform

Working height (max)	11.90 m
Lifting Capacity (max)	905 kg
Horizontal reach (max)	1.22 m
Machine weight	5,850 kg
Drive	4 x 4 Diesel

### 16 metre electric boom lift

Working height (max)	16 m
Lifting Capacity (max)	230 kg
Up and Over height	7.70 m
Machine weight	6,532 kg
Propulsion (engine type)	electric

## Manlift, your total supplier for every construction project

Through our years of experience in construction projects Manlift has become a leading knowledge partner and supplier for the rental and purchase of aerial platforms. We can also maintain your aerial platforms, we have a wide range of spare parts available and we present certified IPAF and PASMA training courses.

- As a total supplier, you can find solutions for your entire building process under one roof at Manlift. One supplier means that you also reduce transport movements on your building project.

## Tailored solutions

Manlift can help you find a tailor-made solution for your specific situation.

- Our wide range includes specialist construction machinery (such as rough terrain aerial platforms) for reaching construction work at any height.
- Manlift can consult you during the planning of the construction project itself or establish an on-site inspection to assess requirements and machine types to ensure you highest level of productivity, safety and efficiency with the right aerial work platform.
- We have various custom solutions available, e.g. 230V connection points, lighting or extra wide baskets.

## Quality and safety

Manlift conducts a rigorous quality policy. Our equipment is distinguished by their quality and good operating condition. Machines are inspected before delivery and approved annually.

- ISO
- IPAF Training centre for custom operator training (also at your location).
- Tested, inspected and cleaned machines from top brands such as JLG, GENIE and TEUPEN
