

MANLIFT POWER

Founded and based in 2008 in Qatar, Manlift Power provides leading edge Temporary Power Solutions through a high quality generator fleet, extensive industry expertise and exceptional service support. As your power provider we offer full turnkey, tailored and synchronized power solutions up to 50MW. We believe in offering our customers only the best – the most skilled technicians and a fleet of Generators, ranging from 50KVA – 1250KVA, purpose built for Rental. From World Cup Stadiums, Highways and Metro's to Petrol Stations, Events and Accommodations, our portfolio of successfully completed projects speaks for itself, giving you the confidence that comes from our experience.

Our team of dedicated and trained Technicians provides 24/7 service support to ensure the highest uptime and reliability of our solutions. Moreover, our fleet of 300 state of art Cummins and Perkins Diesel Generators support our customers to save operating costs, meet deadlines and achieve the highest levels of safety.

POWER SOLUTIONS FOR ANY INDUSTRY

Manlift Power has footprint across a wide range of industries and provides power solutions to include businesses in Construction, Oil & Gas, Industrial, Governmental Utilities as well as Events and Accommodation while using our experience to deliver tailored, reliable and fuel efficient turn-key solutions. From getting your site up and running to handling emergencies, our generators and distribution equipment will get the job done. If you need to distribute power across your site – our panels, transformers and switchgear will get it to the right place.

Ancillary equipment available for your power needs:

- Cables
- Transformers
- Fuel tanks
- Distribution gear
- Load banks

STATE OF ART RENTAL SOLUTIONS

Rental Specification Fleet

Manlift has a fleet of Cummins and Perkins diesel Generators purpose built for Rental. Our generators can be combined and synchronized to give you the power you need – no more, no less.

Manlift Generators are powered by efficient diesel engines achieving high output performance while maintaining low emissions and noise levels.

Extended Runtime

The combination of high-capacity fuel tanks and low fuel consumption allows the Manlift Generators to run up to 48 hours without refueling.

An uninterrupted power supply for critical installations and applications maximizes productivity thereby reducing operating costs.

Safety & Environmental Friendly

Manlift Generators feature 110% environmental containment and bunded fuel tanks to prevent the spillage of fuel, oil or other fluids.

At Manlift we make Safety a priority in everything that we do. All our processes are compliant to the international standards of ISO 9001:2008 and OHSAS 18001.

Silence & Compactness

Manlift generators have been designed as compact and super silent units able to perform between loads in extreme temperature conditions.

All units are equipped with large doors allowing excellent accessibility for inspections and servicing without compromising compactness weight of the generator.

MORE TO OFFER THAN POWER

STRONG AVAILABILITY

With our extensive rental fleet of Power Generators and flexible operations we can rapidly mobilize equipment to support all of your power needs.

FULL TURN-KEY SOLUTION

From assessment of needs, delivery and mobilization, to fuel management we get things running with our comprehensive service – so you can focus on getting the job done

24/7 SUPPORT

Our experts are always available to advise you on the most efficient and reliable power solutions at your jobsite. With our toll-free 'Technical hotline' we offer 24/7 and 365 technical support.

UNMATCHED RESPONSE

With our average technical response time of less than 1 hour, we beat the clock and keep an eye on your costs. We offer hassle-free support to help keep your site projects ahead of schedule.

SALES OF MANLIFT GENERATORS

Manlift Power sets itself apart from other Generator sales and service providers by a strong focus on delivering the Best Customer Experience and reducing your costs of ownership. Should you require a permanent or long term Power Solution with unrivalled after sales service – Manlift is your partner. Our Sales offering for open and closed Generators ranges from 9 – 2500 KVA and for Mobile Light Towers from 4 - 1000 W. With our sales experts on your side we consult with you on right solutions for the job to be done. We offer cost effective maintenance contracts, warranty for new purchase of generators and ensure you shortest lead time of spare parts.

Manlift collaborates with internationally renowned suppliers such as Perkins, Cummins, Leroy Summer, Meccalte and Deep Sea Electronics. From assessment of need, tailoring the solution, delivery and mobilization we offer turnkey power sales solutions. To maximize equipment lifetime and manage costs of ownership customers prefer to let experienced Manlift Technicians take care of servicing of the Generators.
